

Ongoing reformation of Swedish primary health care

Basic challenges

- Demographic
- Chronic and complex health problems
- Poor access and continuity
- Decentralized healthcare system

Core elements of the ongoing reform

- **Easy access to primary health care**
 - Digitalization
 - Rural and sparsely populated areas
- **Continuity**
 - Shortage of staff => recruit and keep..
- **Patient involvement and participation**
 - Planning together
 - Information to patients
- **Collaboration and coordination**
 - Decentralized system
- **Financial support**

Tack!
